A Case Management Conference (CMC) was held by teleconference on July 4, 2017, at 12:00 P.M., Eastern Time (Ottawa).

[1] The Parties reported that documentary production was now complete, subject to documents that might be produced by experts.

[2] The Parties also reported that they are communicating on a draft Agreed Statement of Facts and they have exchanged document lists for a Common Book of Documents, none of which can be finished until expert reports are completed.

[3] The Parties expect that a draft oral history hearing transcript will be delivered by July 7, 2017. The Parties will review the transcript in respect of accuracy of names and spelling.

[4] The Claimant's expert is in an advanced state of preparation of a report, subject to completion of playlist analysis and review of the oral history hearing transcript. The Claimant expects that its expert report will be completed by the end of September 2017.

[5] The Respondent anticipates preparation of a responding expert report, and to that end, has engaged an expert.

[6] The Parties will report at the next CMC on:

- (a) the status of the Claimant's expert report; and
- (b) the anticipated date of completion of the responding expert report.

[7] The Tribunal invited the Parties to consider having an expert evidence hearing where the experts will be examined and cross-examined. In advance of the next CMC, the Parties are invited to jointly propose to the Registry dates on which they would be available for an expert evidence hearing.

[8] The next CMC will be held by teleconference on **September 27, 2017**, at 1:00 P.M., Eastern Time (Ottawa).
